HOC SIGNO FORTUNA.

BALTIMORE, THURSDAY, May 15, 1823.

## Opening of the Wheels.

According to announcement, the drawing of the 6th class of the Washington MONUMENT LOTTERY commenced yesterday afternoon. The official list of all the Numbers drawn will be found on the opposite page. On examination it will be seen that One of the *Thousand Dollar* prizes came out to No. 5402. We have only to say that the CASH will be paid for it, the MOMENT IT MAY BE PRESENTED, as will be done also with every prize in the scheme. Nos. 1722—2762—5973, prizes of *One Hundred Dollars* each, we had the pleasure of sending to distant adventurers—the other prizes are variously distributed, and having no time to particularize, can only remark that our usual success has already commenced in the distribution of the lucky numbers.

THE DRAWING will be continued ON WEDNESDAY NEXT, the 21st inst.—Tickets are only *Ten Dollars*, and Shares in proportion.

## The Grand State Lottery,

Will commence on Wednesday after next, the 28th inst.—the time quickly approaches, and when it is recollected that there is NO RISK until the whole of the prizes are drawn, adventurers will consequently complete their investments as soon as possible. The orders from every section of the Union are daily encreasing, and we have no doubt the tickets will become scarce, at a very early period of the scheme. The magnificence of the Capital prize of ONE HUNDRED THOUSAND DOLLARS is a most splendid attraction; and the purchasers of tickets can now for the small amount of Twelve Dollars, procure a chance for obtaining a sum sufficient to make themselves and families comfortable for life.—Address orders without delay to

J. I. COHEN, Jr. Baltimore.

## Six Dollar Tickets.

There has been so great a demand in this city, and from a distance, for *half tickets* in the GRAND STATE LOTTERY, that they have acquired the title of the "*Six Dollar Tickets*"—in fact, when we consider that the sum of six dollars (which is within the means of almost every class of adventurers) may produce the brilliant amount of FIFTY THOUSAND DOLLARS, and which in itself is a handsome independence, we are not surprised at the unprecedented demand for the share tickets of that denomination. We have issued already, a very large number of them, UNDER SPECIAL ACT OF ASSEMBLY, and we shall continue to keep a supply on hand. It will be recollected, however, that when the rate of the whole tickets is advanced, the half tickets will also rise in proportion, and that therefore, the earlier the application is made, the greater is the certainty of being supplied with the "*SIX DOLLAR TICKETS*." All orders sent to COHEN'S Office, will meet our accustomed prompt attention.

*Foreign Grain.*—We learn that one of the packets from Boston has brought to Baltimore *three thousand bushels of wheat*, which had been imported into Boston from the Baltic sea!

In addition to the above, in the ship Electra, recently arrived at Philadelphia from London, there came consigned to a single house *one thousand bushels of Rye!!*

## DISTURBANCE AT HARVARD COLLEGE.

We learn by the Boston Statesman, that a very serious rebellion has broken out among the students at Harvard College, and that almost the whole senior class have left college. The affair is stated to be so serious as to preclude the possibility of a commencement the next season. A letter received at New York, states that the rebellion arose from the dissatisfaction at the appointments for the commencement exercises; and that all the students of the senior class, with the exception of ten or fifteen *have bound themselves by an oath* to take no part in the commencement.

*Mission to Porto Rico.*—The United States brig Enterprise, proceeded to sea from New-York, on Saturday morning last, for Porto Rico, with Mr. Randall, a special messenger from our government to the authorities of that Island; supposed to relate to the recent outrage committed upon the schooner Fox, which resulted in the death of Lieut. Cocke.

*Bank Robbery.*—The State Bank of Illinois, was broken into on the night of 26th of April, and robbed of 4,200 dollars in specie. An alarm was made, and after strict search, one of the boxes, (of which there were three,) containing \$1,000, was found concealed in a ditch covered over with brushwood. Neither of the thieves, nor any thing further of the plundered property, has been discovered. A reward of three hundred dollars is offered for the apprehension of the robbers, or return of the money.

## Foreign Summary.

London dates as late as the 4th of April have been received since our last summary; they do not furnish any information of a decisive nature in reference to the operations in that quarter to which the eyes of all are turned with an intense interest and anxiety. The report contained in the *London Sun*, of the 3d of April of a declaration of war by France against Spain not being confirmed by the papers of the following day or by private letters, must be considered as premature—and to be grounded on the expectation excited by previous accounts from Paris, that a *manifesto* would be published from the 1st to the 5th of April, which would contain such a declaration. There is abundant practical confirmation however of the fears we have hitherto expressed, that a momentous crisis was at hand. The operations on both sides of the Pyrenees indicate the most desperate resolution of the respective parties to maintain the policy to which they were pledged. The Duc d'Angouleme had arrived at Perignon, on the north eastern frontier of Spain, and intended to visit the different posts of the army ranged along the frontier to Bayonne. Marshal

Moncey had addressed his *corps d'armie* in a way that denotes an intention of immediate invasion. The French army was fast collecting at their different rendezvous, and were to enter Spain at four different points, intending to concentrate their divisions as they approached Madrid.—*Philad. E. Post.*

## Miscellaneous Intelligence.

*Printing Press.*—We have seen, this morning a proof sheet specimen of printing, on an octavo form, pica type, by a new printing press, got up in this city, with improvements upon the London Steam Press, by Mr. James Booth. The impression is perfect, and it will throw off *twenty five hundred sheets an hour*, and requires only two hands to feed it. The engine which moves the whole machinery is only one horse power.—*E. Post.*

The Edenton, (N. C.) Gazette of Tuesday last states, that on Sunday preceding, a small child of Mr. James Broughton, of Chowan county, about two years of age, after eating a number of *Yellow Jessamine Flowers*, died in the space of half an hour. In a minute or two after eating them she became perfectly blind.

Immense sums of Specie have arrived at New-Orleans from Mexico. One Mexican schr. brought \$100,000 from Tampico. The amount on board the Robert Fulton is not stated in the New-Orleans paper.

An auctioneer who has been exercising his lungs here, played a *supple* trick to his gaping audience the other evening. 'Come gentlemen,' he says, 'I'll put up a pig in a poke;' at the same time exposing for sale a sealed parcel of considerable size. From the caution peculiar to our townsmen, the bidding was slow, and the article was sold for 3s. 6d. On being opened, it contained silver pencils and penknives, worth much more than the sum. Many were the reflections among the crowd. But the *wily* salesman was not long in announcing another parcel of the same size and appearance. The contest was more keen, and it was knocked down for upwards of five shillings.—It contained *two salt herrings* and a *penny roll*.—*Boston paper.*

*More Counterfeits.*—The New-York Mercantile Advertiser, states that spurious notes of the denomination of ten dollars, purporting to be on the Phoenix Bank of New-York, are in circulation. The engraving is excellent, and the signatures are well imitated; but they can easily be distinguished from the true bills as they are about one-third of an inch longer, and the vignette is a female figure, while that of the genuine bill is a figure of Neptune, with his car and horses.

*Blood Horses.*—The fame of Eclipse, and the interest which, by his performances and success, has been attached to the sports of the turf, have produced a spirit of emulation among the amateurs, which cannot fail materially to improve the breed of our horses, whether intended for the course or for the more ordinary drudgery of the saddle or carriages. Among the horses which will contribute to this improvement is the one daily expected in the ship Maria from London, named *Roman*. His pedigree, which we have seen, (to borrow part of its language) "*duly traced through eight generations of the highest bred horses and mares in England, without a single cross of inferior blood.*" He has taken a variety of purses at York, Doncaster, and other courses in England, running from two to four mile heats. He is a beautiful bay, with black legs, and not a white hair, and stands fifteen hands two or three inches. There is, of course, no intention of letting him run at the approaching races.—*New-York Amer.*
